Objective

Detail-oriented Front-End and Mobile Developer with 5 years of experience, focused on transforming design concepts into intuitive, high-performance web and cross-platform mobile products that enhance user experience and drive business value. Proficient in React and React Native, combining strong code execution and testing with effective collaboration across technical and business teams.

Skills

- **Front-End Development:** ReactJS, JavaScript (ES6+), TypeScript, Micro Frontends, Responsive Web Design, HTML5, CSS3
 - **Mobile Development:** React Native, Cross-Platform Deployment, iOS/Android Emulators & Environments
 - **Architecture & Testing:** Jest, Unit Testing, Integration Testing, REST APIs, API Integration, Clean Code Principles
 - **Methodologies & Cloud Tools:** Microsoft Azure, Agile/Scrum, Git, Version Control, Code Review, Debugging & Troubleshooting
-

Work Experience

Front-End and Mobile Developer

MRV, Belo Horizonte, Brazil | August 2021 – Present

- Delivered high-quality web and cross-platform mobile applications across 5 internal projects, developing code and writing tests to optimize construction industry operations.
- Mentored junior and mid-level developers, providing daily guidance on team code standards, clean code practices, and application maintainability.
- Conducted deep-dive bug analyses and critical code reviews, ensuring robust refactoring, comprehensive testing, and production environment stability.
- Collaborated with Product Owners and UX Designers during alignment cycles to deeply understand business goals and translate design intents into practical technical solutions.
- Contributed to key technical consensus and architectural evaluations, including the successful adoption of Micro Frontends to scale enterprise web applications.

Additional Experience

Electrician & Automation Technician

Club Med, Brazil | January 2016 – July 2021

- Programmed and deployed automation solutions to optimize infrastructure operations, applying engineering logic to resolve complex and technical issues.
-

Education

Postgraduate Certificate in Data Science & Artificial Intelligence

Uninter, Brazil | Concluded: 2024

Postgraduate Certificate in Cybersecurity

Uninter, Brazil | Concluded: 2024

Associate Degree in Mobile Application Development

Uninter, Brazil | Concluded: 2023

Technical Diploma in Industrial Automation

ETEC Presidente Vargas (Centro Paula Souza), Brazil | Concluded: 2015
